## Experience

---

### Infidigit – Developer Intern

Jan 2023 – Feb 2023

Frontend and Backend developer intern

- Worked on frontend projects, gaining hands-on experience in building user interfaces.
- Helped in developing a CRM backend model to streamline customer relationship management processes.
- Enhanced understanding of both frontend and backend development workflows.

## Technical Skills

---

**Programming Languages:** Python, JavaScript, HTML, CSS, java, SQL

**Tools & Frameworks:** React.js, Tailwind CSS, Django, Bootstrap, MongoDB, Git, GitHub, Supabase, Streamlit, Microsoft Excel

## Projects

---

### AI QR Code Generator and Decoder

- Developed a QR code tool using Python and Streamlit to generate and decode QR codes for text, URLs, and WiFi credentials.
- Integrated AI functionality to customize the appearance of QR codes based on user-generated prompts.

### Clinic Website ( [Website Link](#) )

- Built a full-stack clinic management website using React.js and Tailwind CSS.
- Implemented patient login, appointment booking, and service/contact pages.
- Developed an admin dashboard for doctors to manage blogs and patient reviews.
- Used Supabase for storing and retrieving patient feedback in real time.

### Book Recommendation System

- Designed a book recommendation system using Python and basic machine learning concepts.
- Provided personalized suggestions based on user preferences and reading history.

## Certifications

---
